Recapture Technologies Corporation
Steve Barry, President

Dear Steve,

Thanks for your help in recovering monies for Mid Florida Hematology & Oncology Centers, P.A.

It has been nearly one year since our organization and Recapture Technologies Corporation entered into the telecommunications audit service agreement. We are very pleased with the performance. This includes both retrospective credits and prospective savings.

Your company provides quality service in a professional manner. I recommend Recapture Technologies Corporation without reservation to any organization wishing to optimize infrastructure cost without sacrifice to level of service.

Sincerely,

David A. Jordan,
Administrator
